RSQ®
Real Sound Quality

RSQ HD38 Hard Drive

RSQ has come to you with new hard-drive based Karaoke player. HD-38 can do anything that you'd imagine for a karaoke player. It can play songs from CD/USB/SD, and of course, from the internal Hard Drive. Easy play-back and song search function from hard drive makes your life a lot easier than ever.
Have you ever had hard time loading your songs onto the hard drive karaoke player that you previously have had? This machine allows a new feature of USB/SD to Hard drive copying function. You can now download songs onto your USB/SD, and copy that into hard drive directly from the machine. With HD-38, your karaoke experience will enhance by far.

Detachable hard drive slot makes it a lot easier for you to switch/upgrade your hard drive at your convenience.

VocoPro DVG-777k II Multi-Format USB/DVD/CD+G Karaoke Player

Never deal with a scratched disc again!

Let's face it? discs are becoming a thing of the past. That's why you won't find disc players on our new TWIN-BANK. Instead, we have twin 500GB* hard drives to handle even the most mammoth of media libraries with ease. But just in case you do need to play some files on-the-fly, we got you covered with dual USB and SD inputs.

The dual hard drive design makes this unit perfect for a KJ, DJ or VJ setup. Each side has a 12% pitch adjustability and digital key control. Pitch adjustment works on both audio and video and is key-locked, so the key and syncing of the music will not change during pitch adjustments. Dual A/V inputs and outputs, and a switched A/V output are on-board, ensuring maximum compatibility with your rig. Pick up a TWIN-BANK and enter the digital domain!

Features:

- Supports AVI, VOB, MP3+G, MP3, and JPG Formats
- Dual 500GB* Hard Drives Can Store Thousands of Files (1TB hard drive is also available)
- ±12% Pitch Control with Key-Lock Works on Both Audio and Video
- ±7 Step Digital Key Control
- Dual USB Thumb Drive and SD Card Ports on the Front Panel for Easy Access to Additional Media
- Rear Panel USB Ports for Data Transfers To and From a Computer
- Full Function Remote Control
- 120V/240V and NTSC/PAL Compatible for Worldwide Use

PHONIC MIXERS

Phonic AM-125FX Mixer

Phonic's entry-level AM series of mixers are compact and versatile with anywhere between 1 and 4 mono Mic/ Line and 2 to 4 stereo line inputs. Ultra low-noise pre-amps ensure high quality sound when used in project studios or in sound reinforcement. The multi-band EQ on mono channels gives you total control over your mix. Each model offers a high volume headphone output with independent level control. The AM series makes monitoring the mix even easier with dual multi-segment LED level meters and stereo control room outputs on select models. FX models feature a single user-adjustable multi-delay effect. Affordable and easily manageable, these AM models are ideal for the budget-conscious beginner.

Features:

- 4 Mic/Line 4 Stereo Compact Mixer with EFX
- 4 Mic/line channels and 4 stereo channels
- EFX send on every channel
- 75Hz low-cut filter on mono channel
- 3-band EQ on each channel
- Multi-delay EFX processor with parameter control for easy and flexible applications
- +48V phantom power on mic channels
- Control room/Phones source matrix for maximum monitor flexibility
- EFX/AUX send cue for monitoring individual channel

Price $189

Phonic AM-440WFX Mixer with Wireless Bluetooth

The AM440W Compact Mixer features an onboard 2.4 GHz bluetooth module that allows playback of any audio signal directly from any smartphone, tablet, and laptop. Users can also connect up to two wireless microphones (model numbers BTM-10 or BTM-20). All wireless audio is then sent through to channels 11 and 12. The AM440W features 4 mono mic/line channels in addition to 4 stereo line channels for flexible input possibilities. Each mono channel features a super-musical 3-band equalizer as well as a 75Hz low-cut filter for removing stage rumble. A 32/40-bit DFX processor is built in with 100 preset effects in addition to 8 tap delay effects and a number of test tones.

Features:

- 2.4 GHz wireless audio playback
- Four mono microphone/line input channels
- Four 1/4" stereo line input channels
- Accepts balanced and unbalanced input connections
- Connect any Bluetooth audio device
- Control room/Phones source matrix for monitor flexibility
- EFX/AUX send cue for monitoring individual channel
- 75Hz low-cut filter on mono channel for removing rumble
- Versatile 100 EFX with 8 tap effects and test tones
- Balanced master output
- Global +48V phantom power
- Ideal for sub mixes, small performances

Mackie PROFX 8 8-channel Mixer with onboard effects and USB I/O

The ProFX8 offers a complete and truly professional feature set, perfect for solo performers, small performing acts or any small venue that needs it all, without the hefty price tag. There's even USB I/O for recording the set. The "Pro" in ProFX stands for Pro. Professional tools, rugged build quality, small footprint… everything you need.

The ProFX8 is fully stocked, featuring four Mackie high-headroom, low-noise mic preamps, 3-band EQ, a built-in DI for direct connection of a guitar or bass, integrated effects, precision 7 -band GEQ and more. All of these great features are housed in a rugged enclosure, in true Mackie "Built-Like-A-Tank" tradition. The ProFX8 has the right set of great-sounding tools to make your gig sound better and run smoother.

"Gig-Ready" RMFX™ Effects

The all-new RMFX™ (Running Man FX) 32-bit effects processor brings "Gig Ready," useable effects to your mixes. Why scroll through hundreds of bizarre effects, like "ghost ambience?" Yeah, like anyone even knows what that means. Or how about winners like "delay+phaser2", which you'll never use in a million years. Those other mixers will leave your fingers raw from all the scrolling you have to do. The RMFX™ processor features 16 solid FX that are known for their utility and usability. Small, medium and large room reverbs with a mix of a warm and bright characteristics puts your mix in the right space. Simple, rich choruses and an array of practical delays enable you to create professional mixes without requiring a two-hour sound check. Basically, we've delivered the choicest parts of a full rack of gear, right at your fingertips, that is easy to master, allowing you to look and sound really good at your next gig. Really, really good.

Record and Stream via USB

With all the right tools for the job, the ProFX8 allows you to create memorable mixes, but even with all those features, portability is paramount and you can't be burdened with lugging around additional equipment. No worries, integrated USB I/O takes the pain out of recording. Just connect the ProFX8 to a laptop, start up your included copy of Tracktion 3 Music Production Software (or almost any DAW software out there) and you can record the whole mix. You can even stream music from your laptop during breaks. Once you get home, record more tracks or use the ProFX8 to playback some tunes during the next BBQ. Unless you're a vegetarian…not that there's anything wrong with that.

The innovative "USB Thru" switch allows for an impressive live/recording setup when using performance software like Ableton Live or Reason. When gigging, stream the output of your performance software (or iTunes, for that matter) into the ProFX8. Combine that signal with anything plugged into the mixer, and send the whole thing back to the computer for recording. Archiving your integrated live performances has never been easier!

Legendary Mackie Durability

Mackie is known for building mixers that are "Built-Like-A-Tank" and the ProFX8 is no exception. All of its tender bits are securely encased in a solid steel chassis. Not only that, the impact-resistant side pieces are made of ultra-tough ABS, adding extra protection where it is most likely to fall…not that you drop things.

PHONIC USB MIXERS

Phonic AM-442D USB Mixer

In this digital age, the ability to record each and every thing you do is a valuable commodity. Whether it's a quick and dirty demo, a shiny new live recording or just some quick licks you've come up with on the fly, recording has never been as easy as it is with an AM USB mixer. The AM442D USB, AM642D USB and AM844D USB are new members of the AM family of mixing consoles, exhibiting the same awesome features and classic analog feel that these units display, but with a few fantastic additions. A stereo USB recording interface makes the unit perfect for recording live events, practice sessions, studio jams and so on, without the headache that comes with complex recording setups. In addition to this, a versatile compressor function has also been built right into mono channels for smoothing out vocals and drums. With just an AM USB mixer, a modern computer and a tiny bit of talent, you'll be making quality recordings in no time!

FEATURES:

- 4-Mic/Line 4-Stereo 2 Group Mixer with DFX & USB Interface
- 4 Mic/Line channels with inserts and phantom power
- Stereo USB audio interface for PC and Mac computers
- 4 stereo channels with 4-band EQ
- 3-band EQ with swept mid-range plus low cut on each mono channel
- 2 aux sends, aux 1 with Pre/Post switch
- 32/40-bit digital effect processor with 100 programs + tap delay
- 2 true subgroups with Main L and R routing switches
- 2 stereo aux returns with effect to monitor level control
- Solo feature on each input and output
- XLR connectors available on main L / R output
- Convenient stereo RCA I/O 2T input with level control
- Built-in switching power supply with universal connector, 100-240VAC, 50/60Hz
- Rack-mounting kit included

Phonic Speakers

Phonic ISK12 12'' 2-Way Stage Speaker / Floor Monitor

With its signature vertical curvatures, thick foamed grille, and ergonomic metal handles, the studio-tuned iSK establishes itself as the new segment benchmark. The iSK's new 1.8'' pure titanium compression tweeters gracefully extends beyond 22kHz and long-throw woofers reaches lower F0's than other woofers on the market. The iSK series is the most versatile in its class, dual angle pole-mounts (iSK8/12/15), and a 45° floor monitor position for two-way models. Finally, the iSKs are incredibly heavy-duty with either ToughCoat™ anti-scratch surface or professional-grade carpeting. Engineered for an unsurpassed audio response, sensational power handling, and extensive mounting possibilities, the iSK establishes a new benchmark.

- Power Handling: 700 Watt Music / 1400 Watt Peak
- New 1.8'' pure titanium compression tweeter
- New long-throw composite woofer for deep low frequency extension
- 20mm Grade-A MDF body to increases structural strength
- Wide 90°x70° dispersion angle
- Serves as 45°floor monitor when placed on side
- Input and Output: Professional Speakon connectors
- Dual pole mounts give users a 10° option
- Thick 1.3mm foamed grille
- Metal handles for handling

Price
$319

Phonic ISK15 15'' 2-Way Stage Speaker / Floor Monitor

- Power Handling: 700Watt Music / 1400Watt Peak
- New 1.8'' pure titanium compression tweeter
- New long-throw composite (paper/fiber) woofer for deep low frequency extension
- Thick 20mm Grade-A MDF body with stability bracing increases structural strength
- Wide 90°x70° dispersion angle
- Serves as 45° floor monitor when placed on side
- Input and Output: Professional Speakon connectors
- Dual pole mounts give users a 10° option to increase sound coverage
- Thick 1.3mm foamed grille
- Metal handles for handling

Price
$369

Phonic Speakers

Phonic Inception 500rms 12" Powered Speaker

Phonic's Inception powered speaker series establishes a new paradigm for live sound. Inception 12 and Inception 12 DSP's 1100 Watt integrated power amps paired with custom transducers produce a shattering 131dB maximum sound pressure level (SPL). The Inception 18 Subwoofer provides an incredible 1200 Watt for a maximum SPL of 129 dB. The Inception 12 DSP's 40-bit Theorem™ digital signal processor serves as a virtual "soundman" within each unit, offering an EQ function, feedback killer and a variable delay circuit. The unique internal voltage regulator provides complete protection against irregular power sources. With 1100 or 1200 Watts of ground shaking power, on-board mixers, custom tuned transducers and impact resistant polymer bodies, the Inception powered speakers leave few stones unturned.

- 550 Watt RMS/1100 Watt Peak bi-amplified system
- Bi-amplified design with both D and AB class technology employed
- 1.75'' pure titanium compression tweeter reveals acoustic details beyond 20kHz
- 12'' long-throw composite woofer for exceptional low frequency extension
- 131 dB maximum sound pressure level
- Exceptionally flat frequency response between 45Hz and 20kHz
- 75° conical dispersion
- Three M-10 fly points for installation hanging
- Industrial-grade 1.8mm grille
- Enclosure: Impact resistant polymer shell
- Vertical body curvature strengthens body structure and decreases diffraction effects
- 45° floor monitor position when placed on side
- Line-level XLR outputs for connecting additional amplifiers/speakers
- 3 ergonomic metal handles
- Remote gain
- Timed turnoff

Acoustic Technologies IC200A 15” 200w Powered Speaker

Acoustic Technologies have done it again. Producing another product with amazing sound quality. Check out the IC200A 15” powered speaker for only $595 with FREE speaker stand.

- 200 Watt Class D Amplifier
- Light Weight
- Full Range
- Handle, Wheels and Stand Hole (Top Hat Mount)
- XLR in, Thru and IEC Mains (IEC lead included)
- Portable, Stylish and Cost Effective

Price $595

About AT Professional

Our Mission:
To Research, Develop and Manufacture Loudspeaker Systems and related Electronic Products with no equal. With over 25 years experience in the field we are well placed to achieve this goal. We own the Company and don't have to answer to any financially driven influences that could result in the premature release of a sub-standard product.

Our Philosophy:
Design without compromise - Excellence in audio.
Use the finest quality materials and parts possible.
Maintain the highest standards of workmanship and quality control.

The Result:
Our cabinets have been placed alongside the world's top brands and have been chosen above all others.
Our only problem has been that at times orders have out-stripped our production capabilities. Whilst this has been rectified, it is important to note we did not take the easy way out and sub-contract the manufacture of our enclosures.
Rather: We improved our in-house capability and efficiencies, retaining and maintaining that all precious quality control.
Apart from the design, construction, performance and other qualities a great loudspeaker cabinet should have, we offer an extra ingredient at no cost.

Acoustic Technologies SFMO7A Powered Foldback Wedge

A very capable vocal wedge with plenty going for it. Combines hi-fi sound with super-discreet looks.

What an excellent little wedge this is. And I mean ‘little’ in the nicest possible way. Acoustic Technologies’ SFMO7A is a self-powered foldback wedge that has been designed to be compact, light and easy to use, while still delivering the highest quality sound for professional applications. Based in Queensland, Acoustic Technologies is good at making small speakers that deliver quality live sound. With both design and manufacture done in Australia, I was very impressed with its AT FR21A 12-inch woofer and horn speaker I reviewed back in Issue 94. The SFM07A is part of the same family of speakers and it arrives as a little brother for the larger SFM09 powered wedge.

TASCAM DR05 RECORDER

Portable Handheld Recorder

EASY TO USE - TASCAM's DR-05 brings high-quality stereo recording to an easy-to-use portable powerhouse with a size and price that anyone can handle. The DR-05 records in MP3 or WAV format – including 96kHz/24-bit high-resolution audio – to microSD or microSDHC media. A pair of all-new microphones handles up to 125dB SPL with the sensitivity to capture every detail. With new recording features like Peak Reduction and Quick Menu, the DR-05 puts album-quality recording in the palm of your hand.

Everything about the DR-05 is designed to get the best quality recordings of your music. A new pair of built-in microphones withstands up to 125dB SPL – the volume of a jet plane from 200 feet away – yet still has the sensitivity to capture every detail of a performance. You can add your own microphone or line-level source through the 1/8" stereo input, including plug-in power for microphones that need it.

One new feature that makes the DR-05 easy to operate is the new Peak Reduction feature. This setting automatically sets your recording level by listening to the input and adjusting for the best level. Unlike Auto Gain settings, this one only goes down to prevent accidental distortion after a period of low level like a break. Peak Recording works in rehearsal mode or in record, so if the performance is louder than the sound check you're still safe. Used with the built-in limiter, it's unlikely you'll distort your career-making live recording.

Other classic TASCAM features are included, like Variable Speed Audition to loop and slow down music without changing the pitch – perfect for transcribing or learning new music. A Level Align function can be switched on for playback, to smooth out any sudden volume jumps, and a built-in speaker is also provided. The two AA batteries are enough to power the recorder for 17 1/2 hours, even while recording at CD quality.

- Built-in Stereo Condenser Omni directional Microphones with sensitivity up to 125dB
- Up to 96kHz/24-bit WAV (BWF) linear PCM recording
- Stereo MP3 recording from 32-320 kbps bit rate
- Automatic or manual level setting
- Auto and manual track increment
- Variable speed playback (50%-150%) without changing the pitch
- Loop and repeat playback
- Level Align feature prevents uneven volume levels during playback
- Playback EQ setting
- Editing function (Divide and delete)
- Up to 99 mark points on each file
- Chromatic tuner
- 1/8" stereo mic/line input
- USB 2.0 port for transfer to PC and external power
- Up to 2-second pre recording buffer
- Jump back function returns to previous point with one action (1-10, 20, 30 sec.)
- 1/8" headphone/line output
- Built-in speaker
- microSD (64MB – 2GB)/microSDHC (4GB – 32GB) card slot (2GB card included)
- Powered by 2 AA batteries, AC adapter (optional: PS-P515U), or USB bus power
- Tripod socket hole

Price $199

Lighting

LED Crystal Ball

This digital crystal magic ball can be controlled by the built in control panel. You can change the rotation speed, colours and strobe. This LED crystal ball has 6 built-in colours (red, blue, white, orange, purple & green) It is suitable for creating a nice easy effect. You will be amazing by the coverage of the LED Crystal Ball.

Specifications:

- Red, green, blue
- Light power: 20W
- Control mode: Built in menu
- Item size: 17.5 x 16.8 *x 16cm
- Item weight: 607g

Price $59

LED RGB Parcan

Advanced LED technology with long life rated 60,000 to 100,000hr LED's. With very low power consumption and super bright LED's this parcan is brilliant for indoor use. It comes with Built-in automated programs in stand-alone mode or sound active mode or DMX.

You can control what colour you would like out of red, green, blue or let it go as sound active mode. Static colours and RGB colour mixing with or without DMX controller. Colour gradual change/colour jump change/strobe, running speed adjustment.

Features:

LED's power: 18 x 1W RGB LED (6pcs Red, 6pcs Green, 6pcs Blue) / Play Mode: Sound Active, AUTO, DMX, Master/Slave DMX channels: 5 / Interface: 3 pins XLR jack for DMX or Maser-Slave linking / Net Weight: 2.1Kg

Price $69

LED Par Bar

The PARBAR RGB set is an ultra-convenient package offering real portability for performers on the move. Consisting of 4xLED RGB heads mounted on a T-Bar with a sturdy lighting stand. Foot controller and compact carry case all included. It's a complete out-of-the-bag system that can be set up within minutes and then packed away to an easy-to-transport package, about the size of a soft guitar case.

There's full DMX control and sound active microphone built into the actual T-Bar unit. The included 4 position foot pedal lets performers change the light output, even while they are performing. There are internal chase programs and further units can be connected master/slave. This is a handy for performers who are short on time and space but still want the effect of a full-blown light show.

Key Features:-

- RGB colour mixing
- Individual spot control
- 4 pedal foot switch

Price $599

Lighting

Chauvet - LED Cubix 2.0

Cubix is a multicoloured, LED centerpiece that combines two effects in one fixture. Centrally-mounted LEDs produce multi-coloured effects and animations that flow across the room, while the quad-sided derby effect floods the dance floor with rotating, multi-coloured beams. Effects can be controlled independently to create custom light shows, or simultaneously for a full out barrage of light.

- DMX channels: 6
- Light source: 64 (24 red, 24 green, 16 blue) LEDs
- Light source: 2 x 3 W tri-colour LEDs, 50,000 hrs
- Coverage angle: 111°
- Weight: 7.5 lbs (3.4 kg)
- Size: 13.3 x 10 x 10 in (337 x 255 x 255 mm)

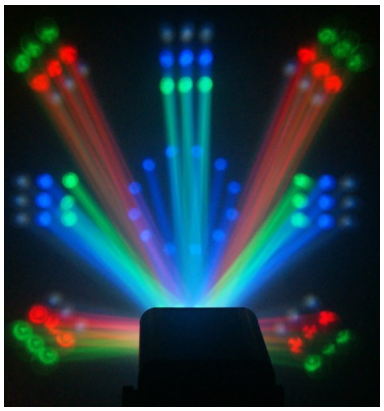
Price $279

Beamz - LED Revo 9 Burst

Beamz latest addition to the Revo9 LED Burst PRO. This powerful light features 187 RGBW LEDs, enough for any sized venue and can be run on 3 programs; sound activated, auto, and DMX which allows users to put together amazing lighting shows. A sound activated or auto-run LED light effect with 187 RGBW LEDs producing various pre programmed gorgeous light beams. The LED technology ensures very low 20W consumption and high light output. Perfect for use during parties, in discos, theatres etc.

- Light Source - 187 RGBW LEDs
- DMX Channels - 14
- Consumption - 20W
- Dimensions - 200x200x300mm
- Weight - 2.5Kg
- 187 RGBW LEDs (52 Red, 36 Blue, 57 Green, 42 White)
- DMX, Auto, and Sound Activated modes
- Pre-Programmed Patterns
- 14 DMX Channels

Price $189



Chauvet LED Megatrix

Equipped with 192 RGBW LEDs, Mega Trix™ is a lightweight DMX effect light that projects animations from pod to pod for a very unique look with no moving parts. Super-crisp optics create dazzling mid-air effects and sharp beams of light that cover a large area. An innovative internal mounting bracket allows for quick and easy mounting to most tripods or speaker stands with no additional clamp needed. Built-in automated and sound-activated programs can be easily triggered via DMX or stand-alone.

- DMX channels: 3
- Light source: 192 (48 red, 48 green, 48 blue, 48 white) LEDs
- Coverage angle: 85°
- Input voltage: Auto-ranging 100-240 VAC 50/60 Hz
- Weight: 7.8 lbs (3.6 kg)
- Size: 10.1 x 14.7 x 7.9 in (257 x 373 x 201 mm)

Price $269
